

Sunshine Sugar Baby

Wake up, it's been a while
Do you still remember how to smile
Did you, get lost along the way
Trying hard to fit into this crazy place
All the good things have gone away
You're lying to yourself you know it's not the same
You don't know who you are
You don't know who you are anymore

Feels just like yesterday
We were full of hope so young and brave
We were foolish, forever young
We were riding just like cowboys right into the sun
Now the good things have gone away
You're lying to yourself you know it's not the same
Yeah it just don't feel the same,
Yeah you just don't feel the same

Give me some more sunshine and sugar baby
Give me all your lovin' tonight
Don't leave me feeling so tired
A little sunshine and sugar baby
You know I really really need it
really really need it right now

Trying hard not to think, about
All the things that could've been
But they, all keep coming back to mind
They are, haunting you still all this time
You wanna, break free from the chains
You're tired of playing all the same old games
So you just keep moving on
Yeah you just keep moving on

Give me some more sunshine and sugar baby,
Give me all your lovin' tonight
Don't leave me feeling so tired
A little sunshine and sugar baby
Don't put me up on a cloud
then leave me hanging with doubt
A little sunshine and sugar baby
You know I really really need it
really really need it right now

Life so Fine

Just an ordinary day as you go on
With the things you do
The old lady across the street
She looks like she could use some food
You can tell by the look in her eyes
That she hasn't slept in days
But you just walk on by
When she asks you for some change

Even a child can tell you what's wrong and right
Even the worst of us could use some help some time

What the hell is wrong with you
Can't you see that she is human too and
I can't believe the things you do
Just to prove that you are right
Not another day goes by
You don't perpetrate your selfish lies
And you won't stop this heinous crime,
Living a life so fine

You claim to harvest souls and lead them to salvation
Making pop stars out of fools
Just to grow your congregation
Greed has turned you to
A million dollar corporation
There's no stopping now
Just carry on to your damnation

Even a sinner knows what's wrong and right
What kind of saviour misdirects with lies

What the hell is wrong with you
Can't you see that you are human too and I
Can't believe the things you say
I wonder where your conscience lies
I wonder how you sleep at night
When the things you do ain't justified
Another day another lie
Living a life so fine.

And if it isn't bad enough
I think it's really quite too much that you
Take for granted all the power that you have
Waging wars in search of gold
Tainted black like your very soul
Killing innocents
And spreading hate and death across the globe

Just an ordinary day
As you go on with the things you do
You don't stop to think
You don't care you just play by your own rules

What the hell is wrong with you
Can't you see that we are human too and
I don't believe that who you are
Gives you the right to claim a life
I wonder how you sleep at night
When the things you do ain't dignified
Another day in paradise
Living a life so fine
Living a life so fine
Living a life so fine

Good Times

Don't take a genius to find out
Just what the meaning of this life is about
Sometimes the dollars just don't make any sense
So go and have a real good time

Everybody's got problems of their own
You don't have to feel all alone
So if you're feeling all down and out
Just go and have a real good time, yeah

Let the good times roll and the bad times go
Happiness is just state of mind
Don't keep it all inside, you've gotta let it slide
You'll feel much better if you let the good times roll

I know that sometimes life just don't seem fair
But that don't mean that you have got to despair
Just leave your cares and worries all behind
And go and have a real good time, yeah

(Chorus)

You've got to make the best of everything we have
Cause we only got just one life
You've got to take in all the happy and the sad
And just keep moving on
And just keep moving on and on

I'll be summer and you can be June
Gonna come on right over next to you
So put your hand in mine and we can be fine
'Cause we're gonna have a real good time
Say we're gonna have a real good time, yeah

(Chorus)

Let the good times roll and the bad times go
Come on baby let's just take it slow
Won't you take that frown and turn it upside down
You'll feel much better if you let the good times roll

Mighty Aphrodite

She's a hot blooded lover
She's makes me sweat all over oh my
She's a pretty sexy lady
Ooh she drives me crazy alright
And every time I see her man
I think I start to understand why
There's a million others like me who just
Wanna be her lover tonight

She's so fine, she blows my mind

Hey pretty baby won't you look my way
And tell me where have you been all of my life
You know that there's no chance I'll let you get away
So come on and let's have a good time
We'll party all night and then we'll sleep all day
And we can do it for as long as you like
And I don't really care what other people say
Cause girl you're my, Mighty Aphrodite

She's made up out of sugar and spice
And everything that's nice
She won't make it easy for me
But that's the way I like it alright
And please don't be mistaken
This is more than just a one night stand
If you say you're crazy about me too then
Girl I'd be a happy man

She's so fine, she blows my mind

(Chorus)

You got me wrapped around your feet
There's no place else I'd rather be
Then laying right here by your side
Aphrodite

(Chorus)

*Speak Your Mind (Ft. Chen Zhiming)

别以为我是笨蛋, Oh Yeah
我早已看穿你的心理一切
虽然我比较年轻, Oh Yeah
但有些事情连小孩都了解

谁在无理取闹
你总是有话要说
为什么现在沉默
你别装不知道

Don't you waste my time
Won't you speak your mind
You're getting out of line
Running out of patience for your kind

You make up all the rules
And think you're so damn cool
I won't be a fool again

Won't you speak your mind
You're getting out of line
Running out of patience for your kind

You try to do it right
But you're picking up a fight
Getting out of hand cause you're not

Speaking your Mind

别在我面前装傻, That you don't care
事情的真像我想你比谁了解
你还敢当我朋友, Oh you're so fake
很想知道你每晚如何入睡

谁在无理取闹
你总是有话要说
为什么现在沉默
想告诉你一下

The Last of Me and You

You know I never wanted to see you cry
It's the last thing on my mind
Now you're in front of me
And this song is not what it's suppose to be

I wish that there was a way to let you know
You're the only one who makes sense to me
Who can save me from my misery

But If you take just a little time
You'll find that there's still shine
But if you say that you wanna be left alone
I just don't have the strength to let you go

Let me dry your tears
And wash away your fears
Don't shut me out now that I'm here
Don't throw away what we hold dear
Let me see this through
'Cause I belong with you
Your smiling face, I can't replace
Don't let this be, the last of me and you

We're standing face to face but we're miles apart
Trying to put together pieces of this broken heart
But we both can see, that
This love is not just what it used to be

But If you take just a little time
You'll find that there's still shine
But if you say that you wanna be left alone
I just don't have the strength to let you go

(Chorus)

Trust

Turn on the TV, don't like what I see
Same war's been going on for the past century
I ain't no man of God but I start to pray
Asking for some guidance this is what He said

You gotta trust you gotta trust,
things are gonna change
Sunshine only comes after a rainy day
You gotta live gotta breathe, don't fade away
It will come together you just got to have faith

Your lady's leaving you for another man
She says you are too boring, you don't understand
Things don't always go the way,
that you want them to be
But get yourself together it's not as bad as it seems

You gotta trust you gotta trust,
Love will find a way
Someday you will find someone who's gonna stay
You gotta live you gotta breathe, don't fade away
It will come together you just got to have faith

Might take awhile, to find the strength to smile
To finally be ok, yeah
But if you persevere, and get on out of here
I know things are gonna change, yeah
Just promise me, you'll never slip away

Just lost your job, you got bills to pay
New house new car, and a baby on the way
Sometimes it's easy to forget what you've got
It's times like these when a little sure seems like alot

You gotta trust you gotta trust,
things are gonna change
Sunshine only comes after a rainy day
You gotta live you gotta breathe, don't fade away
It will come together you just got to have faith
It will come together you just got to have faith,
oh darling
It will come together you just got to have faith

Oh Oh Oh Oh

Baby I know it's crazy
That we fight all the time all the time
But when, the fight is over
You know I'm glad that you're mine that you're mine

You've got a smile that disarms me
Your tender lips you know they set me free
And all my walls come crashing down
And all the bad stuff turns around
I've got to have you right now

I wanna touch you
I wanna squeeze you
I wanna hold you
I wanna oh oh oh oh you
Kiss and caress you
I wanna love you,
I wanna oh oh oh oh you.

Baby you know you hurt me
When you don't think twice
Before you speak your mind
And I, I know I drive you crazy
I forget the things you say all the time, all the time

It's hard for you to say sorry
I guess I gotta be the one who makes things right
But when your walls come crashing down
And we go out and hit the town
I know it's all worthwhile

(Chorus)

You, you've got your way with me
'Cause I can't seem to stay mad at you for long
And I, I think I'm in too deep
And I got myself in trouble
'Cause I just wanna oh oh oh oh

You've got a smile that disarms me
Your tender lips you know they set me free
And all our sense come around
You take it off and lay me down

I've got to have you right now

(Chorus)

Mr. Cool

Black shades, long hair
Walk around like he don't care
He's got the looks he's got the moves
And when he plays you know he's got the groove yeah

He's the man that every guy wants to be
Like Johnny Depp from 21 Jump Street
Don't matter if you're a boy or a girl
'Cause you know he's gonna rock your world

Hey, Mr Cool
You can deny it all you want
But I bet you wish you were too
Just like Mr Cool
If you don't already know
Then you gotta catch the show
Let me tell you 'bout Mr. Cool

Good food fine wine
You could say his taste was quite divine
And all the ladies who act so shy
You should see them when he walks on by yeah

He's the man that every guy wants to be
Like Johnny Depp from 21 Jump Street
Don't matter if you're a boy or a girl
'Cause you know he's gonna rock your world

(Chorus)

Angel of White

She's lying there, so peacefully
I watch her as she sleeps
Just Like a breeze, she comforts me
She sets my mind at ease
I have never felt this way
All my troubles seem to fade away, she's my

Angel of white, she is my light
She's always there, whenever
She's by my side, I feel alright
And nothing else would matter

She gives me love and sets me free
She's the reason that I breathe
I can't believe she's in my life
Don't wanna wake up from this dream

I just can't find the words to say
how she always takes my breath away, she's my

Angel of white, she is my light
She's always there, whenever
She's by my side, I feel alright
And nothing else would matter

Angel of white, she lights my life
with all her hugs and kisses
And if I should die, I'll be alright
'Cause I know, she's my angel

Angel of white, you light my life...
